

DAYZ – SERVER HOSTING RULES – PRIVATE Console | 08.20

In order to keep this document succinct and easily understandable, we will break down the simple Do and Don't list for players renting DayZ servers.

A breach of any of these rules may result in a temporary or permanent removal of the server.

It is not acceptable under –any– circumstance to exploit game mechanics to sell in-game items for real money.

Any questions regarding this can be directed to support@bistudio.com, or the respective game server provider.

Monetization rules can be found here <https://www.bistudio.com/monetization>

Acceptable Usage of DayZ Servers (Also known as the “Do” list)

- You may change the following variables on your server
 - Player count (max 100)
 - Server name (Within certain limitations, which are called out below)
 - Camera mode (between 1PP and 1PP/3PP)
 - Crosshair mode (crosshair enabled/disabled)
 - Server time
 - Start time
 - Time acceleration
 - Time persistence
 - Server Password
 - Server Whitelist
 - Server MOTD
- You may perform the following actions on your server
 - Restart server
 - Turn the server off
 - Kick players
 - Ban players
 - Edit the following files:
 - economy.xml
 - events.xml
 - globals.xml
 - messages.xml
