WELCOME YLANDERS

Welcome Ylanders to our fourth installment of the Explorer's Gazette. So much has happened in the last TWO months (the things happening were so exciting, Adam forgot to write June's Explorer's Gazette) and it is all very exhilarating. First off, we have released the much-awaited **Update 1.3: Watery Water**, which has been tremendous fun. But since then we have also released our first ever Goodie Pack and much more! So read on, what June and July brought to the world of Ylands.

UPDATE 1.3

AN UPDATE TO QUENCH THE HOT WEATHER

Watery Water turned out to be one of our biggest updates yet with its many new features, including Underwater Adventures, the Compass, and Water Editing. Especially Water Editing gripped the hearts and minds of many and even the marketing team had a little fun with it. But it truly brings myriad new possibilities and loads of avenues to explore in your game creation.

But it's not all editor this, editor that. Far from it, because Watery Water

brought several huge new features to Exploration too, especially the much-requested creature riding, where pretty much any animal can now be tamed and ridden (though still no crab surfing 😊), while a few can also be "harvested" for resources, such as Milk and Wool. And another great Exploration addition was the Underwater Adventures, which broadened the horizons of Explorers everywhere.

TOP TWEET OF THE MONTH

Our Top Tweet of the Month just had to be something to do with water naturally and it was the revelation, that beneath the waves there are secrets never before found and adventures to be experienced!

COOL GAMES TO PLAY

GETTING LOST IS FUN!

Getting lost in a maze filled with golems has never been so much fun 😊 Check out Golem Maze in our workshop! We have been working closely with a French youth club, who took it upon themselves to create their own game. And wow are these kids talented! Stay in school, kids, and you too could create wonderful spooky mazes!

GOODIE PACK #1

THE REVENGE OF THE PINEAPPLE

While June brought a major update to Ylands, July produced our first ever Goodie Pack. These are updates designed to fill the void between major updates, bringing hotfixes, but also a few goodie items to play around with. And the first Goodie Pack was exceptionally generous,

especially because of the addition of such instant classics, such as the Pump-action corn gun and the devastating Pineapple grenade. But it wasn't just the Explorers getting goodies, but Creators too, with the fun stickers entering the fray. Star Glasses and Goofy smiles are the best 😊
